# PROCEDURES & PROCESSES

## Connecting the Logitech "Group" kit to a Computer
## And using it to participate in a Zoom Video Conference
## A68 Fitzpatrick Hall

| Background |
| --- |
| The Logitech "Group" Kit can be used to participate in a Zoom video conference. This procedure walks you through connecting to and using it in a Zoom video conference on a Mac OS X-based computer. |

| Process Overview |
| --- |
| Once you join a Zoom video conference, utilize the Microphone & Camera "up arrow" icons to display options and select the Logitech "Group" Kit as your microphone and camera. |

| 1 | Utilize the Zoom client app to join a Zoom video conference. | Join conference. |
| --- | --- | --- |
| 2 | From the Zoom toolbar, click on the "up arrow" next to the camera icon. Select the Logitech "Group" Kit as the camera to use.<br><br> | Camera "up arrow" – choose Logitech "Group" Kit as the camera. |

| | | |
|---|---|---|
| **3** | From the Zoom toolbar, click on the "up arrow" next to the microphone icon. Select the Logitech "Group" Kit as the microphone to use. And select "DisplayPort (Crestron) as the speaker to use.<br><br>**Select a Microphone**<br>Same as System<br>MacBook Pro Microphone (MacBook Pro Microphone)<br>✓ Logi Group Speakerphone<br>USB PnP Audio Device<br>Crestron Audio<br><br>**Select a Speaker**<br>Same as System<br>✓ DisplayPort (Crestron)<br>Logi Group Speakerphone<br>USB PnP Audio Device<br>MacBook Pro Speakers (MacBook Pro Speakers)<br>Crestron Audio<br><br>Test Speaker & Microphone...<br>Switch to Phone Audio...<br>Leave Computer Audio<br><br>Audio Settings...<br>Kevin Drew | Microphone "up arrow" – choose Logitech "Group" Kit as the microphone.
